CASA GRANDE RESIDENCE, JAKARTA, INDONESIA

PARQUET FLOOR BONDING: SikaBond® T-55, SikaBond® Construction Adhesive

BUILDING TRUST

PARQUET FLOOR SOLUTIONS

PROJECT DESCRIPTION

Kota Kasablanka is one of the busiest shopping centers in South Jakarta. Kota Kasablanka with a number of entertainment and lifestyle stores can attract millions of visitors every year. With this success, Kota Kasablanka developed the Casa Grande Residence apartment consisting of 3 luxury condominiums namely Angelo, Bella, Chianti with a choice of two and three bedroom units with sizes ranging from 76m² to 153m². 1 type of executive unit can be accessed by a private elevator. Casa Grande Residence is equipped with abundant recreational facilities, such as swimming pools and 6,000 square meters of water parks. In line with the concept of modern green buildings, apartment units are interconnected with unique green dwellings.

Angelo, Bella, Chianti has been thoroughly planned to offer a comfortable modern lifestyle. Each unique layout allows for perfect personal design. Casa Grande Residence is a new community that is integrated with top-scale shopping centers and 2 towers of international standard office buildings located right on the outskirts of the Jakarta Business district.

PROJECT REQUIREMENTS

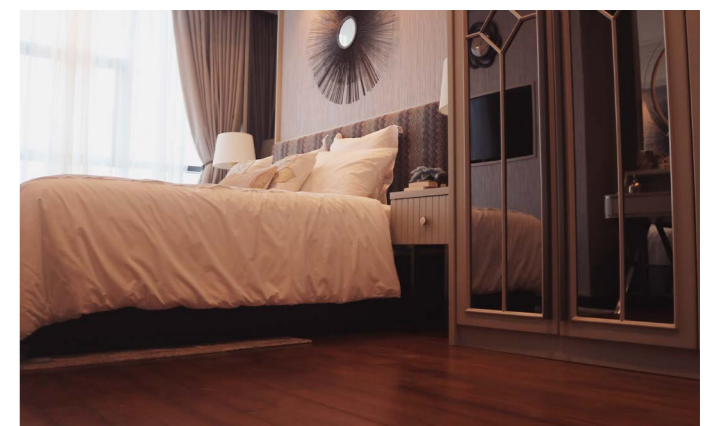

Installation of parquet floor, namely FSE Parquet (Full Solid Engineering) Asian Walnut LT (Low Traffic) and Arquet FSE Merbau LT by using the best adhesive material and making skirting in all Casa Grande Residence units. Applied on self-leveling area, so that from self-leveling directly to the parquet floor.

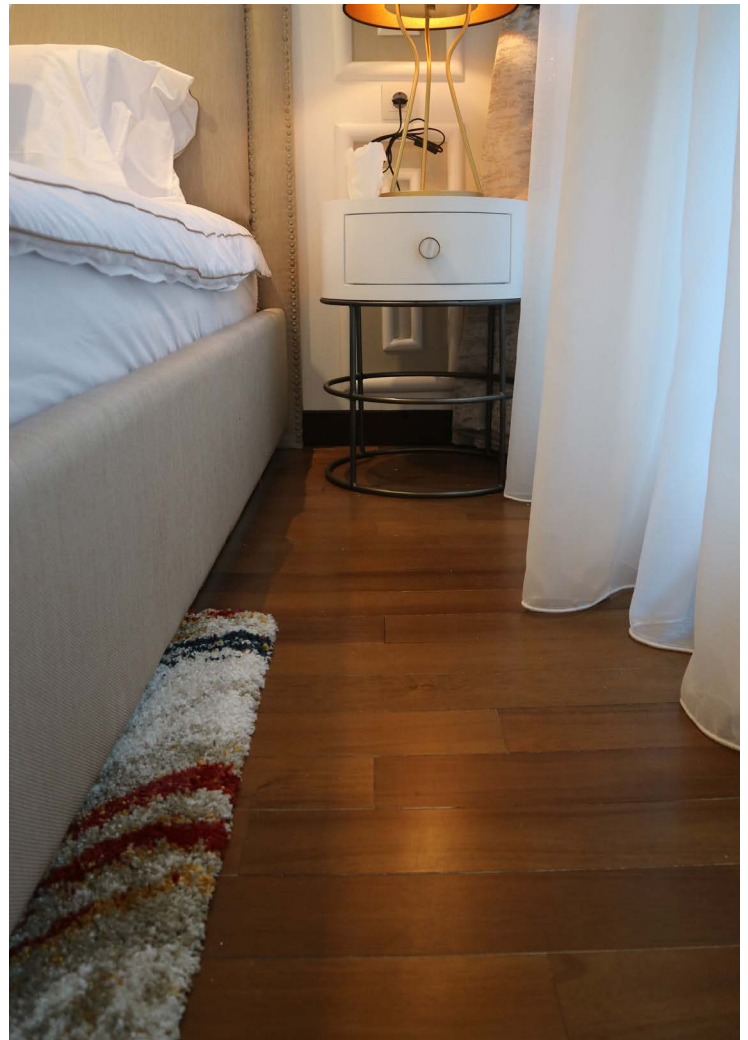

SIKA SOLUTION

Parquet floor adhesive with SikaBond® T-55 and SikaBond® Construction Adhesive products for skirting.
